Amendments to the Claims:

This listing of claims replaces all prior versions, and listings, of claims in the application:

Listing of the claims:

- 1. (Currently amended) A treatment for a packaged method of treating a food product, said method comprising the steps of forming a package of said food product and covering said food product with a micro-perforated covering, filling a container with a gas selected from the group consisting of CO₂, N₂ and CO in a confined container; placing said food product into said confined container; and introducing a halogen cuprous compound into said confined container for absorbing carbon monoxide from said food product.
- 2. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous chloride.
- 3. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous bromide.
- 4. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous sulfate.
- 5. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous aluminum tri-chloride.
- 6. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous aluminum tetra-chloride.
- 7. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous aluminum tri-bromide.

Inventor: HEKAL, Ihab M. Serial No.: 10/735,421 Filing Date: 12/12/2003 Group Art Unit: 1761 Examiner: CHAWLA, Jyoti

- 8. (Original) The method as defined in claim 1 wherein said compound is comprised of cuprous aluminum tetra-bromide.
- 9. (Original) The method as defined in claim 1 wherein said compound is contained in a sachet for avoiding contact with said food product.
- 10. (Currently amended) The method as defined in claim 1 further comprising the step of placing an oxygen absorber in said confined container.
- 11. (Currently amended) The method as defined in claim 10 wherein said oxygen absorber is contained placed in a sachet for avoiding contact with said food product.
- 12. (New) The method as defined in claim 11 wherein said cuprous compound is placed in said sachet.
- 13. (New) The method as defined in claim 1 wherein said food product is a meat product.
- 14. (New) The method as defined in claim 1 wherein said container is a barrier bag and is used during transport of said food product.
